Mr. Gregory T. Mayo, PE
Georgia Dept. of Transportation
600 West Peachtree Street, NW
19th Floor, Cubicle 1927
Atlanta, GA 30308

Dear Mr. Mayo:

Our Contractor, The Dickerson Group, Inc., has done various Stormwater drainage pipe replacement projects for Gwinnett County since 2006. The projects are of various size and magnitude, all requiring new reinforced concrete pipe from 18" to 72", water line removal, replacement and/or relocation, curbs, side walks, and street repairs. Their work has always been exemplary and on time by their crews, foreman, superintendent and office staff.

Sincerely,

Ron Kolar
Construction Manager II
Department of Water Resources
Stormwater Division

Dear Mr. Mayo:

This is to inform you that we have done business with The Dickerson Group, Inc. for several years. This company has done many projects including stormwater, curbs and sidewalk installation. The Dickerson Group has always done quality work in a timely manner. They are very cooperative and willing to work with us to achieve a first-rate project. They have an efficient office staff and we appreciate their overall dependability.

If you have any further questions please don't hesitate to contact us.

Sincerely,

Gaye Johnson

Subject: Praise for Storm Water Project - Lilburn

Mr. Kolar,

I am compelled today to write and thank you for hiring The Dickerson Group as the company to repair the storm water equipment at the corner of Dunriver Dr, and Montego Way, in Lilburn. I live very close to that intersection and use it to and from work every day. It is my opinion that the crew did a wonderful job.

Although I can't attest to its functionality, I can say that they left the area looking better then they found it, and the crew possessed the utmost courtesy with the driving public during the repairs. I would be hard pressed to ask for more than

they provided on this project. Please allow me to publicly thank The Dickerson Group for their professionalism and your department for using our tax dollars wisely. This was a great accomplishment by all.

Tom Grassia

Subject: Many Thanks for the Great Wall

Tom:

Know I thanked you in person last week for the great work The Dickerson Group did on the Great Wall, but wanted to make it official. So on behalf of the entire Pierce family, please know how greatly we appreciate all your efforts these past several months.

The on-site crews --- from tree cutters to "mud movers" to landscapers --- were all proficient, dedicated, and a pleasure to have on the premises, with Roy and his merry band, the core work horses of the group, deserving special mention. So please relay our thanks to all of them as well.

We are more than pleased and satisfied with the final result, and still stand in awe of the wall itself (now decorated with Christmas lights). It was certainly an extensive project, and a fitting end to 2006. So our sincere thanks and appreciation once again.

Have a Wonderful Holiday Season !!!

Myra, Ben, & Lee Ann Pierce @ 1252 Hadaway Trail

To Whom It May Concern:

Your crew led by Stacey (Wilson?) worked on a Gwinnett County stormwater project on and near my property at 1564 Temple Johnson Road, Loganville, GA during the month of September.

I just wanted you to know that we really appreciate the way you did everything. Stacey ("Big-un"), "Shorty" and Pablo always handled themselves professionally and courteously.

Just a couple of specific examples:

1. They always moved very quickly when traffic approached on Range Road. 99% of the time they were already out of the way before we got to where they were working.
2. They always cleaned up – everyday. Regardless of the day's activity, they moved any debris, cleaned the street, whatever was needed to not only make things presentable, but, actually look good.

There are likely dozens of examples I could cite, but, I hope you get the gist – we were very happy to have them around.

I hope all of your crews handle themselves in the same manner.

Sincerely,

Kevin Kaley

Mr. Robert C. Brush
Officer Manager
The Dickerson Group
871 Old Peachtree Road, NW
Lawrenceville, GA 30043

October 30, 2008

Mr. Brush:

I just wanted to take time to say thank you to the staff and management of the Dickerson Group, for the excellent job they did on the Lake Haven Court project. Your staff did an amazing job transforming the dangerous ugly ditch into a beautiful peaceful creek and the final product was well beyond our expectations.

Also, I would like to say a special thank you to Jason Freeman. Several times during the course of the project I had the opportunity to speak with him and on each occasion I found him to be knowledgeable, professional and informative on the progress of the work. He represented your company well and should be commended.

Again, thank you so much for your thoroughness, professionalism and genuine interest in the project to make sure the customer is satisfied.

Sincerely,

R.T. Dobeck

The Deckerson Group;
the Snellville public works; Don King

It is with this letter that I wish to thank the Deckerson Group with the very professional, thorough and complete project on my property in March. The job consisted of installing a 24" drainage tube from the Alamo place street to a drainage ditch at the end of our lot.

This job was carried out under the very capable supervision of Jason. His organization skills are such that the entire crew worked in harmony.

I would like to thank the town and the contractor for a job well done and solving the problem!

Sincerely,
W.W. Montgomery

July 25, 2008

Mr. Robert Brush
The Dickerson Group, Inc.
871 Old Peachtree Road NW
Lawrenceville, GA 30043

Dear Robert:

The entire Gwinnett community owes you a huge thank you for helping make the official Gwinnett County Fourth of July celebration better than it has ever been.

Gwinnett Glows has become a tradition for tens of thousands of Gwinnett residents and visitors from throughout the metro area during the past two decades. When we expanded the family activities into downtown Lawrenceville three years ago, we set the stage for continuing growth and success. I believe the "hometown feel" of Historic Courthouse Square combines the best of our small-town heritage with modern, computerized pyrotechnics.

Again this year, the entire cost of our magnificent Independence Day fireworks display was donated by businesses like yours. I sincerely appreciate your patriotic gift to the community and the increased community spirit that is a direct result.

Sincerely,

Charles E. Bannister, Chairman
Gwinnett County Board of Commissioners

Dear Friends,

Thank you for your participation and contribution to the Gwinnett County EXCEL Class of 2008. Gwinnett County offers its employees the opportunity to participate in the EXCEL (Executive Competence, Excellence and Leadership) comprehensive 153-hour program conducted by the University of Georgia's Carl Vinson Institute for Government. The program helps the participants refine their management and leadership skills through a three level program.

In addition to our formal coursework, the EXCEL program features a number of extra-curricular activities which are designed to support and broaden the program objectives. One of these is the completion of a community service project that should have a significant and lasting impact on the community.

The Gwinnett County EXCEL Class of 2008 chose the Dream House for Medically Fragile Children as our recipient. This organization maintains and operates a transition home in Lilburn to service the needs of families of medically fragile children. The project involved the construction of a much needed handicap accessible sandbox for the children and siblings to enjoy during their stay at the home. The project outline included the following:

- convert an existing drained Koi pond and garden area to a sandbox
- build a covered structure over the sandbox to allow for a shaded and protected area for the medically fragile children in residence
- perform landscaping around the sandbox area to include new plant materials and sod
- refurbish an existing free-standing deck where camp-outs are frequently held
- provide a hardscape/softscape transition from existing pathway to sandbox area for safer accessibility

Your commitment to this project was inspirational and afforded us the opportunity to far exceed the expectations of our team and the Dream House organization. Our team has established the bar for future projects by those who will follow in our footsteps.

Thank you again for your contribution to such a wonderful organization and the most deserving group of individuals.

Sincerely,
The Gwinnett County EXCEL Class of 2008
